

SCO to BTO Converter

Automatically convert your SCO studies for clinical and workflow efficiency.

The proprietary Silverback® SCO to BTO converter seamlessly changes your old SCO exams to BTO standard for viewing and storage. The converter may process and change SCO exams independently as part of a mass migration or be deployed as part of a dynamic prefetch workflow when a prior SCO exam is required. As part of Silverback®, the SCO-BTO converter frees the customer from the old vendor requirements of both HW and SW.

Silverback® Advantage

- ✓ Reduce cost and reliance on proprietary SCO vendor
- ✓ Ensure new systems populated with BTO standard
- ✓ Enable study retention in format of choice
- ✓ Speed prior exam evaluation through automation and workflow
